**Champions of a Free Society** Edward Wayne Younkings,2008-08-25 This book is constructed around great thinkers of the past and present who have been influential in developing the philosophy of freedom. Its main purpose is to provide a survey and overview of the ideas of leading individual philosophers and economists of capitalism who have contributed to developing what might be called the classical liberal or libertarian worldview. Champions of a Free Society endeavors to provide a guide to political and economic thinking about the desirability and construction of a free society that is intelligible to the educated layperson. Edward Younkings provides an historical perspective of the pursuit of political and economic truth. The goal of this book is to present the development of ideas in language that permits generally educated readers to understand and appreciate their significance. The book's chronological approach considers the thinkers and their ideas as they have developed over the course of time. There is much unfulfilled illuminative potential to be found in the ideas of the past and Younkings successfully integrates the ideas of past and current thinkers into a logical contemporary worldview.

*The Gold Standard* Llewellyn H. Rockwell Jr.,2014-04-09 This anthology contains seminal essays on the ideal monetary system. From Sennholz's discussion of Mengerian monetary theory to Ron Paul's espousal of a political agenda that champions a gold standard, readers will find that this book serves a dual role--It is both an introduction to Austrian monetary theory and a guide to important events in monetary history. Be sure to add this edition featuring essays by some of today's foremost Austrian thinkers to your collection!

Feminismus für die 99% Cinzia Arruzza,Tithi Bhattacharya,Nancy Fraser,2019-08-02 Gerechte Lebens- und Arbeitsbedingungen für alle Frauen - nicht nur für einige wenige gut ausgebildete Karrierefrauen. Das ist der Kampf, zu dem die Autorinnen dieses leidenschaftlichen Manifests aufrufen, in knappen Thesen und in einer klaren Sprache, die keine Missverständnisse zulässt. Die strukturelle Benachteiligung von Frauen steht in direktem Zusammenhang mit allen Formen von Ungleichheit. Feminismus für die 99% ist der zeitgemäße Aufruf zur Abschaffung des Kapitalismus. Der Arbeiter produziert Waren. Wer aber produziert den Arbeiter? Die Antwort liegt auf der Hand: die Arbeiterin. Denn der Kapitalismus ist nicht nur eine Wirtschaftsform, sondern greift unmittelbar in unser aller Privatleben ein, definiert, wie wir Beziehungen organisieren, und führt zu Ausbeutung in allen Bereichen. Sexismus und Rassismus sind darin keine Nebeneffekte, sondern

Teil dieser Strukturen von Macht und Dominanz, die den Kapitalismus erst ermöglichen und hervorbringen. In elf anschaulichen und scharfen Thesen, die zum Nach- und Weiterdenken anregen, die zum Diskutieren und Widersprechen einladen, fordern die Autorinnen eine neue Form der Solidarität: Ihre Vision ist ein feministischer, ökosozialistischer und antiimperialistischer Internationalismus, dessen Ziel nicht das Vorankommen Einzelner ist, sondern das Wohlergehen aller. Die Zeit ist reif für eine neue feministische Bewegung. - Cinzia Arruzza

**Wrong Turnings** Geoffrey M. Hodgson,2018-01-03 The Left is in crisis. Despite global economic turbulence, left-wing political parties in many countries have failed to make progress in part because they have grown too ideologically fragmented. Today, the term Left is associated with state intervention and public ownership, but this has little in common with the original meaning of the term. What caused what we mean by the Left to change, and how has that hindered progress? With *Wrong-Turnings*, Geoffrey M. Hodgson tracks changes in the meaning of the Left and offers suggestions for how the Left might reclaim some of its core values. The term Left originated during the French Revolution, when revolutionaries sought to abolish the monarchy and privilege and to introduce a new society based on liberty, equality, fraternity, and universal rights. Over time, however, the meaning radically changed, especially through the influence of socialism and collectivism. Hodgson argues that the Left must rediscover its roots in the Enlightenment and readopt Enlightenment values it has abandoned, such as those concerning democracy and universal human rights. Only then will it be prepared to address contemporary problems of inequality and the survival of democracy. Possible measures could include enhanced educational provisions, a guaranteed basic income, and a viable mechanism for fair distribution of wealth. *Wrong-Turnings* is a truly pathbreaking work from one of our most prolific and respected institutional theorists. It will change our understanding of how the left got lost.

*Now* Vincent Lavoie,2003-01-01 While the crisis that took place in photojournalism during the 1960's brought about a significant shift in the practices, discourses and institutional structures of press photography, it also affected the practices of artists, specifically with regard to work devoted to revitalizing the depiction of events. The art world attempted to revitalize the historical genre by undertaking its critical rereading, in the spirit of restoring a tradition diminished by the mass media. The problem may be expressed in these terms: How can history be depicted, bearing in mind that the media (mainly

photojournalism and the electronic press) have claimed a monopoly of the genre unto themselves? At issue is the sizeable problem of mass media omnipotence as an obligatory referential universe for historiographical artistic practices. Today, it seems impossible to depict the event in any way other than by accentuating or eschewing the formal attributes, rhetorical artifices, and ideological precepts of the mass media. These approaches to addressing historical moments have been examined in this article both because they epitomize contemporary historical writing and, for the most part, they constitute critical responses to stereotyped depictions of events. Above all, they represent a paradigm shift: the mass media's prerogatives for depicting historical moments has shifted towards the field of art. Contemporary depictions of catastrophe - crimes, sensationalist news items, terrorist attacks, humanitarian disasters, genocides - (common themes in many of the artistic projects represented in the 8th edition of the Mois de la Photo a Montreal} have been especially striking in this respect. For of all contemporary events, catastrophes are the most likely to be spontaneously propelled to the top of the news - roster and the most susceptible to the various inflections of contemporary art photography.

Die Metamorphose der Welt Ulrich Beck,2016-12-12 Als 1986 Risikogesellschaft erschien, machte das Ulrich Beck schlagartig berühmt. Der Soziologe wies nicht nur auf die Nebenfolgen der Industriemoderne hin, er betonte zugleich, dass die Welt sich auch dann permanent verändert, wenn wir meinen, einen vorübergehenden Zustand mit Institutionen und Konzepten einfrieren zu können. Mit beispielloser Neugier spürte Beck den Indizien des Wandels nach und öffnete uns mit der Lust an der terminologischen Innovation die Augen für Individualisierung, Globalisierung und die Transformation der Arbeitswelt. Am 1. Januar 2015 verstarb Ulrich Beck überraschend und viel zu früh. Bis zu seinem Tod arbeitete er an einem Buch, das beides ist: Summe und radikale Weiterführung seiner Theorie. Während es früher Fixpunkte gab, an denen wir erkennen konnten, was stabil blieb und was nicht, erleben wir heute eine allumfassende Verwandlung, die uns orientierungslos werden lässt. Die Metamorphose der Welt ist der Versuch, diese Globalisierung des Wandels zu verstehen und hochaktuelle Herausforderungen wie Erderwärmung und Migration auf den Begriff zu bringen.

**Gender Injustice** Anne-Marie Mooney Cotter,2017-03-02 Gender equality and the importance of the law in combating discrimination are issues explored by this insightful work. Gender Injustice allows readers a better understanding of the issue of inequality and aims to increase the likelihood of achieving gender justice in the future. It investigates equality in employment for men and women in terms of the law, at both national and international levels, and looks at the primary role

of legislation, which has an impact on the court process. It also discusses the two most important trade agreements of our day - namely the North American Free Trade Agreement and the European Union Treaty - in an historical and compelling analysis of women and equality. By providing a detailed examination of the relationship between gender and the law, the book will be an important read for those concerned with equal pay and equal access to employment.
