**"It is Me" Vs. "It is I". Case Study on the Effects of Prescriptivism** Xoana Costa Rivas, 2016-10-24 Master's Thesis from the year 2015 in the subject English Language and Literature Studies - Linguistics, University of Manchester, language: English, abstract: English grammar writing started in the late 16th century and flourished during the 18th century. It was common for grammarians during this era to adopt a prescriptivist attitude towards language; that is, they would dictate norms of correct usage of the language rather than describing language use. This trend lost weight from the 19th century onwards. One of the constructions prescriptive grammarians usually criticised was it is me, with an object case pronoun, as opposed to the traditionally correct it is I, with a subject case pronoun. The aim of this paper is to look at the reasoning behind grammarians' choice of correct form, and assess the effects of prescriptivism on actual language use. This was done by looking at a self-compiled precept corpus made of 66 historical English grammars, ranging from the 16th to the 20th century, as well as a usage corpus (ARCHER and Old Bailey) with data from the same eras. The results show prescriptivist negative comments towards it is me decreasing diachronically, and while grammars definitely did not advocate for the use of the object case pronoun in this construction, people still used it in their speech, but not, however, on their writings, which clearly indicates a division between the uses of these two constructions. It is me has, nonetheless, succeeded in becoming part of the present-day Standard. This dissertation hopes to make a valuable contribution on the field of Normative Linguistics, and to be used as ground for future research.

It concentrates on the traditional core areas of linguistics, without neglecting interdisciplinary and applied branches. For this 4th, revised edition all chapters were updated and supplemented

with historical content, and a chapter on the history of the English language was added. New: the comprehensive online-glossary and online-exercises.

**Language Prescription** Don Chapman, Jacob D. Rawlins, 2020 This book is a detailed examination of social connections to language evaluation with a specific focus on the values associated with both prescriptivism and descriptivism. The chapters, written by authors from many different linguistic and national backgrounds, use a variety of approaches and methods to discuss values in linguistic prescriptivism. In particular, the chapters break down the traditional binary approaches that characterize prescriptive discourse to create a view of the complex phenomena associated with prescriptivism and the values of those who practice it. Most importantly, this volume continues serious academic conversations about prescriptivism and lays the foundation for continued exploration.
